

The single-source solution for the ordering & management of clinical trial material worldwide.

We Make It Easier...

At CyberChrome, we understand that efficient and effective clinical trial recruitment and retention programs are critical to your success.

That is why CyberChrome has developed an advanced system to give you unparalleled control over the management, printing and distribution of your recruitment and study related materials.

Our web-based solution provides clinical sites with direct, online access to locate, personalize, and order the essential tools and materials they need to execute efficiently and effectively. Currently used by some of the largest pharmaceutical companies and CROs worldwide, our solution provides your participating clinical sites with direct, highly controlled access to the materials they need to recruit patients and carry out a study protocol.

A virtually limitless array of materials can be presented and managed, including customized recruitment collateral, site maintenance material and incentive items.

Built upon CyberChrome's extensive experience in print production, management, and distribution for the pharmaceutical research industry, our system gives you the tools and functionality you need to make your job easier.

" I have had a wonderful experience with CyberChrome. They are quick to respond, and are more than willing to go the extra mile to provide us with what we want. I have seen the protocol materials and the quality is excellent. Their reorder website is very user friendly and easy to use. I would definitely recommend them and I would rate them as top notch. "
